

The Garment Bag by Judy Jensen

Judy Jensen

Voyages, 1999

three reversed glass paintings (part of the AIPP collection)

The series titled *Voyages* consists of painted glass in the shape of luggage with dream like vignettes of the places and things that people might carry or pack with them. These three, life size, luminous reverse paintings on glass consist of a garment bag, overnight bag and guitar case. The dream-like tableaux on each piece is skillfully painted with layers of vibrant color and sparkles on the back of the glass, hence the term reverse glass painting.
