If you have pharmacy benefit coverage with UnitedHealthcare, you may learn more about your benefit by visiting myuhc.com® or by calling the toll-free member phone number on the back of your ID card. If you are not currently enrolled with UnitedHealthcare for pharmacy benefit coverage, you may access myuhc.com for additional information during your open enrollment period or you may contact your employer or health plan for additional information.

Medications are categorized by common therapeutic conditions in this reference guide for ease of reference only. These categories do not determine coverage for the medication for your condition. Your benefit plan determines how these medications may be covered for you.

Where differences are noted between this reference guide and your benefit plan documents, the benefit plan documents will govern.

*Coverage is provided for oral formulations.

Bold type = Brand name drug [Plain type = Generic drug]

Clinical programs such as Notification/Prior Authorization, Step Therapy and Supply Limits may apply to listed medications based off your benefit plan.

This list is intended as a reference and may not be all-inclusive. Brand or generic availability may not be current due to changes in the market. The list will be updated annually.

Tobacco Cessation Medications

If you need help to quit smoking or using tobacco products, these preventive medications will be available at \$0 cost-share starting on your health plan's next renewal date on or after January 1, 2015. To qualify, you need to:

- ▶ Be age 18 or older.
- ▶ Ask your doctor to obtain Notification/Prior Authorization. Your doctor will need to let us know you are also getting counseling to help you stop using tobacco products.
- ▶ Get a prescription for these products from your doctor, even if the products are sold over-the-counter (OTC).
- ▶ Fill the prescription at a network pharmacy.

Up to two 90-day treatment courses are covered at no cost each year. Prior Authorization is required for each 90-day drug supply.

Breast Cancer Preventive Medications

For members who are at increased risk for breast cancer but have not had breast cancer, these preventive medications are available at \$0 cost-share. To qualify, a member must:

- ▶ Be age 35 or older
- ▶ At increased risk for the first occurrence of breast cancer – after risk assessment and counseling
- ▶ Obtain Prior Authorization

Most plans cover these medications at normal cost-share for the treatment of breast cancer, to prevent breast cancer recurrence and for other indications. They are available at \$0 cost-share to prevent the first occurrence of breast cancer if a Prior Authorization is obtained. If a member qualifies, they can receive these drugs at \$0 cost-share for up to five years, minus any time they have been taking them for prevention.

Frequently Asked Questions

Under the health reform law, health plans must cover U.S. Preventive Services Task Force A & B Recommendation medications and FDA-approved prescription and Over-The-Counter (OTC) contraceptives for women at 100 percent without charging a co-payment, co-insurance or deductible when:

- ▶ Prescribed by a health care professional
- ▶ Age and/or condition appropriate
- ▶ Filled at a network pharmacy

To comply with this new law which continues to be clarified further by the U.S. Dept. of Labor, Health & Human Services and the Treasury, UnitedHealthcare offers this list of no-cost Preventive Care Medications.

When are Preventive Care Medications available?

This list of Preventive Care Medications is available to you for \$0 cost-share at network pharmacies now except for:

- ▶ Tobacco cessation medications which will become available on your plan's next renewal date on or after January 1, 2015.⁴

Please note, in order to obtain coverage for Preventive Care Medications, even if they are available over the counter, you must have a prescription from a health care professional and the product(s) must be age- and condition-appropriate.

Which Preventive Care Medications are available at no cost?

A list of Preventive Care Medications can be found on pages 1-3 of this document so you can discuss them with your doctor. You can also sign in to myuhc.com or call the number on your health plan ID card to confirm the most current list of Preventive Care Medications for your plan.

Are all birth control products available at no cost to me?

No, only the products on the list applicable to your plan will be no cost under the pharmacy benefit.⁵ Due to new health reform guidelines issued on May 11, 2015, one new method of birth control (contraception) became available at no cost to you on July 1, 2015. The new method of birth control is NuvaRing, a vaginal ring.

The health reform law allows plans to use reasonable medical management to decide which birth control products are provided at no cost-share.

If you choose a no-cost product from the list applicable to your plan, your cost at the pharmacy will be \$0. If you choose a covered birth control product that is not on the list, a co-pay or co-insurance may be required. And this cost will apply to your deductible if you have one.

What if my doctor says I need birth control that is not on this Preventive Care Medication List?

Our Preventive Care Medications list covers all methods of FDA-approved birth control available through your **pharmacy benefit**. However, your doctor may decide you need birth control (contraception) that is not on this list for medical reasons. If so, you can request the type you need by calling the number on your health plan ID card, and asking how to obtain coverage. Medical reasons may include side effects, whether the birth control is permanent or can be reversed, and whether you can use the product as required.

Your **medical benefit** will also cover other forms of birth control such as IUDs, implants and surgical sterilization (having your tubes tied).

How can I get preventive medications to help me stop using tobacco for no cost?

If you are age 18 or older and want to quit using tobacco products, talk to your doctor about medications that can help. If your doctor decides this therapy is right for you, they may prescribe an Over-the-Counter or prescription medication.

Your doctor can submit a Prior Authorization request to get these approved for you at \$0 cost-share if you are also **getting counseling** to help you stop using tobacco products. Your doctor can provide this counseling or help you to find a provider.

Frequently Asked Questions continued

If I'm at risk for breast cancer, how can I get preventive medications for no cost?

If you are a member age 35 or older, talk to your doctor about your risk of getting breast cancer if you have not had it.

If your doctor decides these drugs are appropriate for you, your doctor may offer to prescribe risk-reducing medications, such as raloxifene or tamoxifen.

You doctor can submit a Prior Authorization request to get these approved for you at \$0 cost-share if you meet coverage criteria.⁶

How can I get aspirin to prevent preeclampsia during pregnancy for no cost?

Low-dose or baby aspirin (81 mg) is available at no cost to pregnant women at risk for preeclampsia. If you are pregnant and at risk for preeclampsia, ask your doctor about whether low-dose aspirin can help. If so, your doctor can give you a prescription for low-dose aspirin to be filled at a retail network pharmacy at no cost to you.

Will this drug list change?

Drug lists can and do change, so it's always good to check. You can learn the cost of all products and view no-cost options by:

- ▶ Signing in to **myuhc.com**, and going to **Pharmacy Information**
- ▶ Calling the number on your health plan ID card

What if I have a high-deductible or consumer-driven health (CDH) plan?

The same no-cost options on the list applicable to your plan will be available to you if you are in one of these plans. If you fill a prescription for covered products not on your plan's no-cost drug list, you will need to pay the full cost, until your pharmacy plan deductible is reached.

Are the no-cost Preventive Care Medications available at both retail and mail pharmacies?

Preventive Care Medications are available at both network retail pharmacies and the mail order pharmacy for plans with a mail order benefit.

What if the health care reform law requirements for Preventive Care Medication coverage change?

If the law requiring plans to provide Preventive Care Medications at no cost changes, information on how your costs may be impacted will be available to you by:

- ▶ Signing in to **myuhc.com**, and going to **Pharmacy Information**
- ▶ Calling the number on your health plan ID card

What if my plan has a religious exemption for covering contraceptives?

Some plans may not have coverage for contraceptives if your employer qualifies for a religious exemption. However, you will still have coverage without cost-share of the U.S. Preventive Services Task Force A & B Recommendation medications listed on the Preventive Care Medications list, such as aspirin and vitamin D, tobacco cessation and breast cancer preventive medications.

Still have questions?

Sign in to **myuhc.com** and go to Pharmacy Information or call the number on your health plan ID card.

¹ Please note this list is subject to change.

² Always refer to your benefit plan materials to determine your coverage for medications and cost-share. Some medications listed on the PDL may not be covered under your specific benefit. Where differences are noted, the benefit plan documents will govern.

³ All branded medications are trademarks or registered trademarks of their respective owners.

⁴ The cost for U.S. Preventive Services Task Force A & B Recommendation medications and OTC contraceptives on this list could be reimbursed back to Feb. 20, 2013 when the U.S. Dept. of Labor FAQ guidance was issued. However, they became available at network retail pharmacies at \$0 cost-share on November 1, 2013.

⁵ When informed by a member's health care provider, UnitedHealthcare will accommodate a coverage exception request for any member when one of the zero cost contraceptives listed on the Preventive Care Medications list may be medically inappropriate as determined by the health care provider for that member and UnitedHealthcare will waive the otherwise applicable cost-sharing for a contraceptive not represented on the Preventive Care Medications list.

⁶ If your pharmacy benefit plan is grandfathered under the ACA, these drugs may be covered at the normal cost-share.
