

AUSTIN URBAN TRAILS MASTER PLAN

AUSTIN URBAN TRAILS

Alignments shown are conceptual, and are intended to show geographic connectivity. More detailed routing, environmental evaluations and area connections will be developed for each corridor as funding is identified. Pending a more detailed analysis and adjacent, adequate bicycle/pedestrian facilities, a “no-build” option may be appropriate. A no-build option shall exist when there are environmental constraints that cannot be avoided, when an alternate route that provides an equal level of service is provided, there is a lack of neighborhood or stakeholder support, or there is a lack of available funding.
