November 13-23

Boggy Creek Greenbelt Park

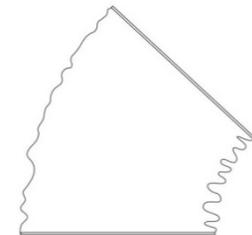

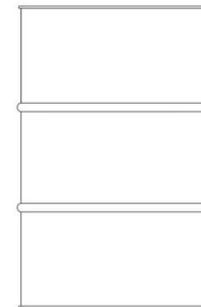

District: 9, 2, 3

**Materials:** Reclaimed oil drums, steel

**Size:** 113" H x 128" W x 96" D

**Description:** A freestanding sculpture consisting of approximately 20 reclaimed 55- gallon oil drum barrels fabricated into an 11 foot tall knot formation. The sculpture will be on display during the SXSW Eco Convention then at Household Hazardous Waste Facility for National Re-Use Day.

**Concept:** The emissions from burning fossil fuels is one of the roots causes of global warming. This sculpture lends itself to deepen the public awareness of climate change.

The compressed and formed 55 gallons oil drum
