

Changes are coming to the Mobile Vending Program

Starting October 1, 2017, the Travis County Fire Marshal's Office will begin conducting Fire & Safety inspections on Travis County Permitted Mobile Vending Units. This will improve the safety of your unit and make mobile food vendor inspections more consistent. For your convenience, these inspections will be conducted at the same time and place as the Health Mobile Vending Permitting Inspections. If you use propane and have a permit in the City of Austin, Fire & Safety inspections are already being done for you. Remember, mobile vending permitting inspections are at 1520 Rutherford Lane on Tuesday and Thursday mornings 7:45am-11am.

Stay tuned for more information to come...
