Any cost associated with specifically requested changes in the scope of the Base Stadium Plan shall be the responsibility of the party making the request except for changes which are consistent with the Base Stadium Plan (i.e., are not a change in scope) and solely attributable to ensuring public access and safety or otherwise required for any other regulatory purpose (e.g., required for any person or entity to achieve zoning, land use or permit approval, etc.); further provided, that the City shall bear the cost of any increases in the Budgeted Cost as and to the extent such additional costs are the result of public access, safety, zoning, land use or permit approval processes or requirements which are solely applicable to or otherwise targeted to the Stadium

- The Club will play all its home games at the Stadium (with limited exceptions as described in Exhibit 4). The Stadium Lease and Development Agreement (and the Club sublease, as applicable) will contain non-relocation provisions and the terms and conditions in which the Club may play a limited number of home games at a site other than the Stadium and/or City during the course of (and/or outside of) a MLS season (see Exhibit 4).
- StadiumCo will be responsible for all costs associated with the Stadium Project including, without limitation, operating, utilities, insurance (except as provided herein), and maintenance costs.
- Routine operational standards will be developed which will be consistent with a Quality Operations Standard ("QOS") for comparable MLS facilities as described herein. The City will have the right to monitor the Stadium's compliance with the QOS; subject, however, to the City's absolute reservation of its "police" powers.
- Capital repairs standards ("CRS") will be developed as described herein.
- The Club will guarantee all obligations of StadiumCo to the City.
- All terms and conditions of agreement, inclusive of guaranty and non-relocation terms, will be binding on any successor to StadiumCo and the Club, as applicable, and will not be affected by any change of control of PSV, StadiumCo or the Club.
- There will be no StadiumCo early termination rights following Stadium completion except in case of an uncured material breach by the City or in the case of condemnation, casualty and similar events that render the Stadium unusable for its intended purposes.
- StadiumCo shall provide to the City a customary performance bond in a form reasonably acceptable to StadiumCo and the City and consistent with other transactions of a similar nature to assure the performance of StadiumCo's obligations arising from and pursuant to the Stadium Lease and Development Agreement. Such bond shall be in an amount and for a term to be determined by the parties in the Stadium Lease and Development Agreement. If such bond is not reasonably

	<p>available, StadiumCo shall provide alternative assurances regarding the performance of StadiumCo’s obligations arising from and pursuant to the Stadium Lease and Development Agreement consistent with other transactions of a similar nature.</p>
Club Transfer	<ul style="list-style-type: none"> • If StadiumCo and/or the Club is sold, any assignment of the Stadium Lease and Development Agreement to the buyer of StadiumCo and/or the Club, as applicable, shall be permitted so long as (i) the buyer of the StadiumCo and/or Club, as applicable, is approved by MLS and (ii) to the extent required by the documentation with StadiumCo’s primary lender in the event such debt will remain outstanding, the buyer is approved by StadiumCo’s primary lender at the time of the sale, and PSV or the buyer shall provide reasonable written evidence of such approvals to the City in connection with such sale which evidence is sufficiently detailed so that the City will be able to determine that all of the foregoing requirements have been or will be satisfied by the date of the sale.
Rent	<ul style="list-style-type: none"> • Commencing with year 6 of the initial lease term and thereafter during the remainder of the initial term (and during any renewal term), StadiumCo shall pay an annual Site rental fee of \$550,000.
Revenues – General	<ul style="list-style-type: none"> • StadiumCo shall, subject to the terms and conditions of the Stadium Lease and Development Agreement, market, control, and be entitled to receive and retain all revenues, net of taxes, relating to the operations of the Club, the Stadium and the Site, including, but not limited to, revenues generated from naming rights, sponsorship, advertising (including both in-stadium and exterior signage), premium seating, merchandise, Club events, other events, and ancillary revenues (including parking) (except for certain civic-oriented events of the City as described below).
Insurance	<ul style="list-style-type: none"> • The City shall secure and maintain any and all property and casualty insurance policies, warranties, and other similar policies as may be appropriate for the Stadium and its components. Such policies will comply with City requirements and MLS minimum insurance requirements and reasonable and customary requirements of StadiumCo’s lenders and will be maintained at a level that is no less than that which is customarily required for comparable MLS facilities. • StadiumCo shall maintain liability insurance for its management and events naming the City as an additional insured.

Other Lease Issues

- The City shall have (or if contracted by the City to the public-sector parties below, then such public-sector parties shall have), subject to the terms and conditions set forth in the Stadium Lease and Development Agreement, use of the Stadium and field for up to five (5) civic-oriented events and unlimited use of other areas of the Stadium or Site (that do not require the use of the field) for other civic-oriented meetings, conferences, and other similar events, based on availability and as agreed upon by the Club and the City, each for no rental fee and at no additional cost to the City, or if contracted by the City to the public-sector parties below, then at no additional cost to such public-sector parties, in each case other than direct event expenses. The City shall receive all direct net revenues from such events including concessions, merchandise, parking, etc. and shall only be responsible for its event related expenses. Such civic-oriented events shall not compete with events traditionally held in stadiums, and the City may contract this right to other public-sector entities such as local school districts, Austin Community College and Travis County, but shall not contract this right (or allow others to contract this right) to third parties that would customarily contract directly with the venue operator in publicly owned facilities. Scheduling of civic-oriented events shall be subject to priority for MLS and other Stadium scheduled events, and field maintenance requirements. The City shall maintain liability insurance for its management and events naming StadiumCo as an additional insured. The grounds, open space and trails outside of the Stadium shall remain open to public access when the Stadium and Site are not holding scheduled events. StadiumCo should use reasonable efforts to design the site in a way that allows public access to trails and as much of the grounds as possible when a scheduled event is taking place outside.
- The City (or other City entity) shall not develop, finance, or incentivize the development of any other professional soccer stadium in excess of 1,000 seats in the City that will compete with the Stadium. It is understood that the City cannot preclude the possibility that it may assist with the developing and financing of spectator venues specifically designed for other non-soccer professional and amateur sports or entertainment uses.
- The Stadium Lease and Development Agreement will contain such other reasonable provisions not inconsistent with those herein as are customary for a lease/sublease by a governmental authority of a public facility and for facilities of the same or substantially similar type and usage as the Stadium Project, taking into consideration the market and

	<p>project financing utilized for the Stadium.</p>
<p>Capital Metro, Parking and Other Site Coordination Issues</p>	<ul style="list-style-type: none"> • PSV shall enter into an agreement with Capital Metro as soon as reasonably practical to include the following terms: <ul style="list-style-type: none"> (1) PSV will construct, per Capital Metro design and approval, prior to Stadium opening, bus and transit facilities identified and recommended by Capital Metro in an amount not to exceed six hundred and forty thousand dollars (\$640,000.00). A request will be made for expedited development permits and a fee waiver for the transit facilities. (2) PSV shall contribute three million dollars (\$3,000,000.00) to Capital Metro for Capital Metro identified and recommended transit related facilities. The contribution shall be payable by PSV in equal installments over 15 years or a term mutually agreed upon by the parties. The first installment shall be due and payable the first year of operation of the Stadium following completion of the first regular MLS season. • The parties shall work together to develop a Transportation, Parking and Event Plan (including a traffic impact analysis (at the cost of StadiumCo)) that shall be approved by the City consistent with existing and applicable regulations, for which the City agrees to assist in the coordination of all relevant City, Capital Metro, Travis County and State agencies and stakeholder groups. The Transportation, Parking and Events Plan shall address the following: on-site parking opportunities; residential permit parking participation and enforcement for the affected surrounding areas on game days and during major events; clearly defined roles and responsibilities for implementation; and determining standards and enforcement for minimizing impact to surrounding communities related to hours, noise, and other quality of life issues. • PSV may request credit (for the value of transit improvements made, or direct financial contributions for transit) towards any traffic mitigation fees or transit improvements required pursuant to a traffic impact analysis, in accordance with the prioritization of improvements outlined therein. • The parties shall work together to explore third party and other financing sources for the construction of a new MetroRail Station adjacent to the Site. Such sources may include the City and Capital Metro share of taxes and revenues generated by the Stadium Project and contributions by StadiumCo. The parties acknowledge the strategic value a

new MetroRail Station adjacent to the Site could provide the Site and neighborhood. StadiumCo shall design the Site to physically accommodate a new MetroRail Station adjacent to the Site.

- The parties will work together to address certain logistical issues for coordinating event planning and staffing, it being understood that StadiumCo (or the appropriate third party event) will be responsible for costs related to Stadium events and associated with police, traffic control, fire prevention, emergency medical, street cleaning/street trash removal and other municipal resources in the Stadium, on the Site, and off the Site to the extent related to Stadium events other than any City (or if contracted by the City to the public-sector parties above, then such public-sector party) civic-oriented event held at the Stadium.
- A reasonable directional signage plan guiding pedestrian, bicycle and vehicular attendees to the Stadium and parking facilities serving the Stadium on public streets shall be developed jointly by the City and the StadiumCo. StadiumCo and the City shall approach other governing bodies as appropriate to request additional directional signage (e.g. Texas Department of Transportation). The directional signage costs and the payment of such costs will be addressed in the directional signage plan.
- The City and the StadiumCo shall work in good faith to develop a comprehensive state-of-the-art signage program on-site that is comparable with other recent MLS stadiums. The City acknowledges the strategic and economic importance of the signage program to the long-term viability of the Club and will work to implement a program that is acceptable to the parties. The specifics of the proposed program will be outlined in the Stadium Agreement.
- The City will recognize and refer to the Stadium by its official designated name and will (and will work with other applicable governmental bodies to) provide the Stadium's primary naming rights partner with customary benefits surrounding the Stadium and Ancillary Development (e.g., inclusion of entitled Stadium name on directional signage, highway signage, etc.).
- The Club will work with the Austin Center for Events (ACE) for the process to establish the event impact area around the Stadium for home games and other large events. This existing ACE process includes working with AFD, APD and Transportation to determine emergency access for fire and police, no parking areas (if and as needed), lane closures or controlled access (if and as needed) and amplified sound

	<p>permits. The ACE process also includes working with area stakeholders, including all neighborhood associations in proximity to the park as well as businesses and residential buildings (condos/apartments). The Club will make good faith efforts to reach out to surrounding businesses with available parking spaces to create additional event parking. The City shall facilitate semi-annual “check-in meetings” in the first three years after construction to gather feedback on event planning, parking and site coordination issues. Meetings shall continue on an annual basis after the first three years. During this process, all parties will work together to make sure that the impact to surrounding residents and businesses is minimized. This includes but is not limited to: no parking signage in neighborhoods and strict enforcement by APD, which also ensures that emergency vehicles can access any resident and managed lanes.</p> <ul style="list-style-type: none"> • The Club will identify offsite parking for “park and ride” purposes and a vibrant shuttle process. The Club will encourage attendees to park offsite and promote the use of the shuttle service to have as few cars as possible trying to access the onsite parking or attempting to park in the surrounding neighborhoods or businesses. Shuttle locations will be dispersed in various areas of the City including areas of limited transit options. • The Club will coordinate with Cap Metro about the potential of the addition of a “pop-up” bus stop for game days in addition to the offsite shuttle. • The Club will coordinate with Cap Metro to enhance transit opportunities on event days.

LEASE AND DEVELOPMENT AGREEMENT
NON-RELOCATION TERMS

(a) Following Stadium completion, StadiumCo shall (x) cause the Club to play all of the Club's home games at the Stadium, and (y) prohibit the permanent relocation of the Club during the term of the Stadium Lease and Development Agreement; provided, however, the foregoing provisions shall not apply during a force majeure event or in the event of a casualty or condemnation event or an uncured breach by the City of the Stadium Lease and Development Agreement that materially impacts the ability of the Club to play its home games at the Stadium. Notwithstanding the foregoing, the Club shall be entitled to play a certain number (as to be further defined in the Stadium Lease and Development Agreement) of home games at other locations under the following conditions: (i) if Club is designated as the "home team" for any non-MLS regular season or playoff match that occurs within a tournament format hosted at a pre-determined neutral site outside of the Austin market; (ii) any preseason match; (iii) any U.S. Open Cup matches in which the in-stadium attendance is expected to be less than 7,500 persons per match; (iv) two (2) MLS regular season match per year that could reasonably sell in excess of 30,000 tickets, provided that the match is played at a venue within 120 miles of the City limits; (v) two (2) exhibition/friendly matches per year that could reasonably sell in excess of 30,000 tickets, provided that the match is played at a venue within 120 miles of the City limits; and (vi) as mutually agreed to by the parties (it being understood that the parties recognize the growth and development of MLS continues to accelerate and that there may be opportunities in the future for neutral site games that inure to the benefit of the parties, and accordingly they will act reasonably if and when such opportunities may arise). The right to play certain games outside of the Stadium as provided above shall be non-cumulative and any unused portion shall expire at the end of each lease year. In the event the Club fails to play its home games at the Stadium in any lease year in violation of the preceding terms (and subject to the exceptions expressly set out above), such failure shall constitute a StadiumCo default; provided, however, that for the first such home game not played at the Stadium in any lease year in violation of the preceding terms (and that does not satisfy one of the exceptions provided for above), StadiumCo shall pay to City the sum of \$250,000 (such sum to increase by a percent equal to the CPI Increase on a cumulative, compounding basis for each lease year after the initial lease year of the Term), but for any subsequent failure of the Club to play a subsequent home game at the Stadium in any lease year in violation of the preceding terms, City shall be entitled to seek specific performance or terminate the Stadium Lease and Development Agreement effective thirty (30) days following written notice to StadiumCo of such termination provided, further, if City fails to exercise its remedies based on such StadiumCo default within three hundred sixty five (365) days after such home game was not played at the Stadium, then City shall be deemed to have waived such StadiumCo default related to the such home game not played. If the Club desires to play a home game outside of the Stadium and such home game is not within one of the exceptions set forth in clauses (i) through (v) above, then StadiumCo may submit to the City notice of such desire together with the following information: site of the proposed game, number of tickets reasonably expected to be sold for such game and the Club's opponent. Upon the City's receipt of such notice, City shall, by giving notice to StadiumCo within thirty (30) days after receipt of such notice, either consent to such proposed home game being played at a location other than the Stadium or refuse to

consent to the proposed home game being played at a location other than the Stadium. If City fails to respond to any request for consent within such sixty (60) day period, then City shall be deemed to have approved the proposed home game being played at a location other than the Stadium.

(b) In the event the Club is permanently relocated (or plays substantially all of its home games outside of the Stadium in any given lease year) in violation of the preceding terms, then as City's sole and exclusive remedies, at the City's election and as to be further delineated in the Stadium Lease and Development Agreement, either (i) StadiumCo shall pay to City, as liquidated damages, and not as a penalty, an amount equal to \$1,000,000 multiplied by the number of complete lease years remaining in the then-current lease term (had the Stadium Lease and Development Agreement not been terminated), plus a pro-rated amount for any partial lease year remaining in the then-current lease term (had the Stadium Lease and Development Agreement not been terminated) or (ii) StadiumCo shall be responsible for the demolition of the Stadium and for levelling with clean fill, and in either such case the Stadium Lease and Development Agreement shall terminate effective as of the date of such relocation.

(c) The terms and provisions of this Section _____ shall survive the expiration or earlier termination of the Stadium Lease and Development Agreement.
