Anonymous 11/15/2019 11:00 AM	(Participant chose both Grouped together tables, covered and Open plaza area for Preferred Place to Gather. Participant chose Traditional park seating, Stone block seating, and Seat walls for Preferred Seating.) Prefer seating and gathering on concrete surfaces - less mosquitoes, more accessible. Still want to see green space with native plants/meadow space. Prefer open plaza area with trees. Preferred seating: I like all 3 types of seating. Seating with a back (bench style) is nice to relax on. Tend to be hot in the summer - Shade?
Anonymous 11/15/2019 11:10 AM	(Participant chose all three seating types)

(Participant chose both Stage with backdrop and Open and raise stage for Preferred Stage Type. Participant chose both Individual picnic tables and Open plaza area for Preferred Place to Gather. Participant chose both Traditional park seating and Seat walls for Preferred Seating.) Preferred Stage Type: Liked the idea of versatility for stage to face the large field and more intimate configuration facing north side. Like backdrop to give it some character. Preferred Seating: Shade is important here. "traditional" seats: benches with a back, but w/ a modern look.

We need open court yard and a covered seating , for family reunions ,small gatherings. Like the large rock for seating but they need to be smooth (safety reasons)

Anonymous
11/20/2019 01:24 PM

Love a natural look. Love gathering spaces, but also have space for individuals or small groups to sit with space away from big parties.

Anonymous
11/20/2019 01:45 PM

Mix of covered multi tables with courtyard and bench seating in addition and individual dispersed tables would be best. Give the opportunity for large Food oriented gatherings, individual sitting with back support, and smaller group food oriented setups. Covered seating is probably the most valuable due to rain and intense sun of the three options. Same for the stage, should be covered.

Anonymous
11/22/2019 09:14 AM

Please do not use extra concrete on the ground (e.g. a 'plaza' would be nice, but with covered ground (grass/ native plants) rather than concrete) - it just gets too hot in the summer!

Anonymous
11/22/2019 10:49 PM

back support when sitting is nice. Covered areas with lots of tables and seating are nice for family or church gatherings, but they also attract drug dealing which is already rampant at Givens.

Austin Bike Polo was hoping to be considered in this planning. Unfortunately, the options are not ideal. The combined court would be a good option, but a wall or fence down the middle would be needed. 2 Full size courts (w/safe buffer zone. Our ideal court is 120'x60'. This would be beneficial to tennis and futsal players or other users for these multi use courts). It doesn't seem to make sense to only have one usable court at a time (because there is no fence - ball barrier in between). Thank you for taking our thoughts into consideration. - Austin Bike Polo Social Club

Anonymous

11/14/2019 04:07 PM

Ideally, the Austin Texas Bike Polo Club is seeking two courts measuring 120' x 60' with 4 foot walls made from some type of plastic. The striping of the courts is not a concern for us, but any gap between the courts and the fences should be eliminated, as our ball is ~3 inches in diameter. We have played on this court in the past and would love to see a shared use with futsal, street hockey, roller derby, skateboarders, or anyone willing to share.

Anonymous

11/14/2019 04:11 PM

Multipurpose courts with diving wall would work best with bike polo

Anonymous

11/14/2019 04:36 PM

Ideally, a divided court with a fence/wall dividing each court is preferred. This could prevent injuries also, if the current court was expanded so that the court could be divided in two, it would also allow multiple simultaneous uses of the space. A multi-use court that is 120' x 60' at least would also allow for bike polo to play/host tournaments. A wall or fence all around the court would be ideal. Houston parks has created this type of multi-use court at Eastwood Park (5020 Harrisburg Blvd, Houston, TX 77019).

Anonymous

11/14/2019 04:41 PM

Austin Bike Polo has been to several meeting and none of these solutions are ideal. The divided courts is great IF there is a fence in between. We can't play on the combined courts without bringing our own boards. Our minimum court size is 120' x 60'. If there was a fence down the middle of the divided courts multiple sports could be played at the same time which is better for the community!

Anonymous

11/14/2019 04:46 PM

ATXBPSC (Austin Texas Bike Polo Social Club) would ideally like to see two 120' x 60' courts constructed with concrete surfaces and walls at least 4 feet tall. The walls need at least 6" to 12" of concrete from the base of the wall to facilitate our sport. A permanent set of goals (hockey or indoor soccer) or a secure space nearby the court to store would also be an appreciated addition. Thanks

Anonymous

11/14/2019 04:55 PM

Austin Bike Polo has been talking to PARD about a bike polo court for some time and we thought this master plan was going to include a court that we could use. Unfortunately, none of these options work for use. The combined court could work but we need a wall down the middle of the court. If possible, we need to expand the court width so you can include the buffer zone and

have 2 full size courts. Our ideal court size would be 120' x 60'. This would make tennis and futsal players happy too. It doesn't make sense to only have one operational court at a time. We need 2 operational courts! Thanks for what y'all do. Hope you can help us find a home. Austin Texas Bike Polo Social Club

Dividers & fencing on perimeters preferred.

Anonymous

11/15/2019 10:39 AM

These options don't accommodate bike polo well. We would like to have bike polo/multi-use courts instead. We want 2 - 120' x 60' courts surrounded by fence and a concrete footer so the ball can bounce off it. Get rid of tennis nets. We should expand the concrete slab to accommodate this.

Is mini pitch soccer popular?

Anonymous

11/15/2019 11:00 AM

Divided courts with a possibility to design and implement a temporary/removable middle fence/barrier seems best for all sports involved - refusal, tennis, bike polo. The tennis court only option isn't inviting to futsal or bike polo, and the combined court doesn't accommodate bike polo and seems like logistically, it would be the most difficult to run on the day-to-day operations side. Bike polo would love to see the divided court option chosen so that all three communities can share the neighborhood space.

Anonymous

11/15/2019 11:10 AM

Would very much love to see walls (movable in the center) around the multiuse ("futsal") court side so that we can play bike polo, street hockey, and futsal on the court and it would be a true multiuse court. The combined court option creates a practically usable court shape/size and the need to removed/putback the tennis court implements seems a logistical nightmare. Two tennis courts is not needed and keeps the park in the past when we're trying to plan for the future.

Anonymous

11/15/2019 11:18 AM

I love the 2 tennis courts but I've never heard of futsal so feel uneducated!

Anonymous

11/15/2019 11:38 AM

With a soccer team coming to the area I believe there will be a need for the soccer.

Anonymous

11/18/2019 11:20 AM

Is there a way to expand and build the new sport court and maintain 2 tennis courts? Build for the population increase in the future not current population. Any tennis court needs 2 courts but it's a good idea to have an additional court.

WOULD LOVE TO SEE A ROLLER DERBY TRACK PAINTED TO MULTIPURPOSE THE COURTS! Bart and Pan Am have these. They are a huge asset to roller derby. With the growth in Austin, there is no where else for teams to skate. All leagues and teams have lost practice spaces multiple times. Austin has one of the top women's and top men's teams in the world! We should support the addition of a painted track so the surface can be used for multiple things (like Bart and Pan Am). I skate with Team Free Radicals, an Austin team, we are currently skating and renting out in Round Rock due to lack of space in Austin. If I can help support this further - feel free to reach out at Rachel Bockheim / 312.560.1799 / rbockheim@me.com

Anonymous

11/20/2019 01:33 PM

Would be also interested in a separated roller derby track like the ones that are at Bartholomew Park and at Pan American park. The tracks at both Bart and Pan Am are frequently booked by other teams that the only location my team (Team Free Radicals) can practice at is at Round Rock which our team dues hardly cover the booking costs, despite being an Austin team. With such a fast growing sport in the city that started the flat track roller derby resurgence, it would be nice for more Austin public parks to provide another outlet for this sport that is being played world wide.

Anonymous

I have lived across the street from these courts for 3+ years and can count on 1 hand the number of people I have seen play tennis. Major current use is bike polo, which would also be lgor from the futsal option. And futsal in general is going to be way more popular given area demographics than tennis ever was.

Anonymous

11/20/2019 02:37 PM

Please add roller derby painted track lines like at Bart and Pan Am. There are so many teams that currently use them in Austin and not enough flat spaces to accommodate.
