I. INTRODUCTION

PUBLIC ENGAGEMENT FOR OUR PARKS, OUR FUTURE

The City of Austin Parks and Recreation Department (PARD) is developing an update to the Long Range Plan for Land, Facilities, and Programs for the Austin park system, Our Parks, Our Future. The Long Range Plan is developed every 10 years and provides a blueprint to guide land acquisition, capital improvements, and the development of programs and new amenities. The City of Austin’s leadership, staff, and partners are committed to involving the community in planning and decision making through a variety of means including in-person meetings, ongoing informal conversations, and the use of technology.

PARD MISSION

PARD’s mission is to inspire Austin to learn, play, protect and connect by creating diverse programs and experiences in sustainable natural spaces and public places.

PARD provides community and recreation services, facility and park maintenance, and planning facility construction, and oversees more than 20,000 acres of land.

LRP PLANNING PROCESS GOALS

CREATE A VISION FOR AUSTIN’S PARK SYSTEM IN 2028
This effort will focus on engaging the community and city staff to define a new vision that is both inspirational and achievable.

GUIDE FUTURE GROWTH AND DEVELOPMENT
As Austin continues to grow and change, the Long Range Plan will provide a careful analysis and guidebook for how and where to invest to ensure a world-class park system.

DEVELOP STRATEGIES, ACTIONS, AND PRIORITIES
The Long Range Plan will provide citywide strategies and priorities to inform the Capital Improvement Program and development of Park Master Plans.

AUSTINTEXAS.GOV/AUSTINFUTUREPARKS
#AUSTINFUTUREPARKS
As the city’s blueprint for new and improved parkland and recreation in Austin for the next ten years, it is critical that Austin PARD staff hear from as many people as possible while the plan is being developed. In addition, the planning horizon of 2028 presents an exciting opportunity for storytelling and celebrating Austin’s park system, as it coincides with the 100-year anniversary of city’s Parks and Recreation Department, which was created in February 1928.

### Community Engagement Goals

Within this context, the goals for community engagement include:

1. Create a fun, culturally sensitive, inclusive and engaging process that celebrates Austin’s parks and recreation facilities and educates the community about the value of Austin parks and recreation;
2. Design a public engagement process that captures the public perception of current and future needs for the city’s park system and results in the development of the Parks and Recreation core values and Long Range Plan priorities;
3. Involve a wide range of ages, races, ethnicities and hard-to-reach residents in the plan by providing multiple ways for the public to engage, including variety in location and timing of events; and providing opportunities for engagement to happen within the context of a person’s everyday activities.
4. Involve PARD employees from various divisions in community engagement to provide perspective on the various programs that PARD provides; help PARD staff understand resident needs and priorities; and assist in developing the core values and priorities for the Plan.

As community engagement activities are planned, they will be tied back to the goals of the Public Engagement Plan.
**METRICS TO EVALUATE OUTREACH & EQUITY**

The primary methods PARD and the consultant team will use to evaluate success include: asking participants to provide their demographic information through surveys and assessing how well the planning process is reaching Austin's less engaged, hard-to-reach populations.

**The following metrics will be used to evaluate the effective reach of promotion efforts:**

- Number of mentions in local and alternative news outlets
- Website hits and downloads of educational materials or reports
- Social media share of Our Parks, Our Future content
- Engagement on NextDoor and SpeakUp Austin
- A minimum of 1,000 survey responses from geographically diverse areas of the city
- Engagement and general awareness of PARD employees and partners

**For all public meetings, events and surveys, the following metrics will be used to evaluate the equity of participation:**

- Number of people who attend meetings or events throughout the life of project
- The range of zip codes of participants
- The age range of participants (when available)
- The race and ethnicity range of participants (when available)
- Statistically Valid Survey Results (representative of Austin's demographics) with a minimum of 800 completed surveys
- A minimum of 1,000 completed online survey responses
- A minimum of 500 new interest list sign-ups
- Level of participation from those with limited English proficiency
- Results of survey / feedback on process (e.g., public meeting comment card)

**DESIRED COMMUNITY ENGAGEMENT OUTCOMES**

**Outcomes of a successful public engagement process include:**

1. Participation that is representative of Austin's demographics (e.g., homeowners/renters; race and ethnicity; age; geographic location) and numbers into the thousands;
2. Involvement at key stages with the City of Austin Equity Office staff and application of the equity analysis tool (specifically Box 4: Community Engagement) leading up to and following each planning summit, to ensure communities of color have been actively and effectively engaged in the LRP process;
3. At the end of the planning process, more residents have learned about and participated in their parks through enjoyable and engaging experiences that help them to develop a deeper understanding about the parks system and the role parks play in peoples’ lives;
4. The LRP is an easy-to-use and meaningful document, which provides clear guidance and priorities for PARD staff and the public, and includes a clear picture of the input received from the community and the plan's vision, strategies, and priorities; and
5. Development of a public engagement process, including messaging and educational materials, that helps define the planning process as a model for the City of Austin and other cities across the country.
3. OUTREACH EFFORTS

A key part of the outreach effort is building a comprehensive stakeholder list. The contact database developed by Austin PARD, the Community Engagement Advisory Committee (CEAC), and consultant team-member Adisa Communications will be informed regularly of public meetings and project updates. This stakeholder list will be supplemented by and regularly updated to include survey participants, as well as those who sign up for updates online and as the public engagement process progresses.

DIGITAL MEDIA

Digital outreach efforts were designed to promote all opportunities for public involvement on the project and to comply with the city’s Digital Inclusion strategy. Reporting by Council District to potentially identify ways in which we can expand the social media reach (e.g., through libraries, neighborhood organizations, community connectivity sites).

**Austin Future Parks Website**
The project website provides the public with a one-stop-shop for information on all project components, a schedule of the LRP activities and updates, as well as materials including draft documents, frequently asked questions, public notices, and links to related websites. The website includes presentations, surveys and other exercises from the various meetings for those individuals who are unable to attend in person. A direct email is also provided for residents to submit questions or comments and requests for additional information.

**Eblasts**
Eblasts are sent out via email to the entire contact database to inform community members of the open houses, surveys, and other events as scheduled. These are distributed through email communications to be both efficient and broad reaching. PARD distributed e-blasts as needed (e.g. in advance of all planning summits and pop-up events) to promote event attendance and increase awareness of the planning process.

**Social Media**
Social media provides an efficient and accessible method of reaching a large cross-section of residents. PARD regularly posts and maintains content and updates on social media sites, including Twitter, Facebook, and NextDoor. The project hashtag for use on Twitter and other tagging-enabled sites is: #AustinFutureParks. A social media project kit is shared with the CEAC and PARD partners to expand the reach beyond the PARD audience, and to personally engage with community members.
 Speak-Up Austin
PARD created an Our Parks, Our Future Long Range Plan SpeakUp Austin! page that links to the project website and includes discussions and posts on topics related to the LRP. The SpeakUp page was used to create a virtual meeting space tied to the first round of community open house meetings. It also served as the landing page for the online survey and will be used in upcoming rounds of community input.

NEWS MEDIA & ADVERTISING
Local news stories are essential to informing and educating the public. The PARD media team provides ongoing media briefings and press releases with the project’s background, process, goals and objectives, and information about how to get involved. Efforts to inform the media happen in advance of and during each of the planning summits and at project milestones. Minority media and alternative news sources, like El Mundo and the Villager, are included in the project's distribution of information and materials. To encourage participation in the Our Parks, Our Future online survey, PARD placed CapMetro bus ads, radio ads, and print ads, including a survey link through text number.

PRINT MEDIA: FLYERS, POSTERS & POSTCARDS
Flyers, posters, and postcards are used to inform community members of the planning process, meetings, surveys, and other events. Not every resident has access to or uses social media and email regularly. Flyers and posters help to bridge the digital divide. Flyers were distributed before every community meeting in locations near the meeting site. Posters and signs were placed at meeting locations, in nearby locations, and in PARD facilities. All meeting flyers are produced in English and Spanish, and other languages are included based on population area. Project postcards are available at events throughout the planning process. Signage advertising the online survey was placed at all facilities and parks.

FIGURE 2. PROMOTIONAL BANNER, SIGN, AND POSTCARD
4. PHASES & TYPES OF ENGAGEMENT

SURVEYS

To ensure broad participation beyond those that can attend in-person meetings, several types of surveys are included: online citywide survey; a randomly selected statistically valid survey; and an audio survey of cultural center users. Information and results from all surveys will be shared with the community at large and used to inform the reporting of the Austin community needs and priorities for use in the plan development.
MEETINGS

Planning Summits 1 and 2 each include five community meetings to ensure geographic and scheduling diversity and gather input and feedback. Planning Summit 3 will include one to two community meetings - draft plan conversations - to review the plan recommendations and actions. A minimum of 12 community meetings will be held throughout the process. The process also includes meetings with several key groups to help inform and guide the process throughout: Core Group (PARD), Technical Advisory Committee (TAG), and the Community Engagement Advisory Committee (CEAC), described in the following section.

POP-UP EVENTS

These quick engagement stations take advantage of existing events or highly trafficked locations (e.g., parks, grocery stores) to supplement the community meeting series and broaden the geographic and scheduling reach of public engagement. Pop-Ups are modeled after the community meetings and are intended to engage a broader audience and meet people where they already are.

FOCUS GROUPS

As part of the outreach, the WRT team is conducting five focus groups to engage a demographically diverse group of people in guided discussions. The specific groups to be engaged will be based on input from PARD, the CEAC (at their first meeting in September), and other stakeholders as the process evolves.

In addition, the project team is conducting group interviews as part of each round of engagement. Groups include both city and non-city staff and have been organized around topic areas, e.g., maintenance and operations, community partnerships, recreation, programs, mobility and trails, and community health and wellness.

PHASE 3:

PLAN DEVELOPMENT / PRIORITIES

FIGURE 3. ENGAGEMENT PHASES TIMELINE
COMMUNITY ENGAGEMENT ADVISORY COMMITTEE (CEAC)

The role of the Community Engagement Advisory Committee (CEAC) is to help guide the outreach, serve as ambassadors of Our Parks, Our Future planning process, identify strategies to engage hard to reach groups, and assist PARD in sharing information about the process and plan with the community. The CEAC met for the first time in October 2018 and assisted PARD with identifying outreach strategies, adding to the stakeholder database, and supporting the overall social media engagement. The CEAC will meet prior to Planning Summit 2 to review and provide feedback on meeting content, logistics, and engagement strategies.

FIGURE 4. COMMUNITY GARDEN
Source: PARD
The Technical Advisory Group (TAG) is a diverse group of representatives of various City departments including PARD divisions, Transportation, Public Works, Public Health, Watershed Protection, Real Estate Services, Planning and Zoning, Office of Sustainability, Office of Equity, among others. The TAG met for the first time as part of the project kickoff in September 2018 and will meet again as part of Planning Summit 2.

5. SUMMARY OF ACTIVITIES TO DATE

The LRP Public Engagement Plan includes a more detailed description of all plan goals, anticipated outcomes, engagement and outreach activities. The following summary provides an overview of the events that have occurred to date, and will be updated as we move through the process.

1. KICK-OFF EVENTS & GETTING ORGANIZED
2. COMMUNITY MEETING SERIES #1
3. POP-UP SERIES #1
4. ONLINE COMMUNITY SURVEY
5. CULTURAL FACILITY AUDIO SURVEY
6. STATISTICALLY VALID SURVEY
KICK-OFF EVENTS & GETTING ORGANIZED

PURPOSE & OVERVIEW

PARD and the consultant team, led by WRT, held a two-day series of meetings, interviews, and tours to officially kickoff the planning process, 9/20/18 and 9/21/18. The kickoff events included a group tour of park and recreation facilities, the first meeting of the Technical Advisory Group (TAG) with representatives from departments across the city, a public engagement strategy session, and a series of WRT-led interviews with PARD divisions and park partners. Stakeholders included PARD operations and maintenance staff, AISD and other schoolyard parks and partnerships, and partners including Austin Parks Foundation, Downtown Austin Alliance, GAVA, Stronger Austin, and Travis County.

Figure 7. Park Tour Highlights
Source: WRT.
PURPOSE & OVERVIEW

This series of five open houses focused on the question “what do our parks mean to you?” and consisted of stations manned by the consultant team and local stakeholders that described the existing parks and recreation resources in the city, explained the planning process and the LRP’s importance, and solicited feedback on:

- Current strengths, deficiencies, opportunities, and challenges
- Facility and program priorities
- Budget priorities and trade-offs (e.g., “money game”)
- Park and recreation future vision

WHAT WE HEARD

Summary of top responses (for all participants, not individual meeting locations):

Favorite Parks:
- Zilker Metropolitan Park
- Metz Neighborhood Park
- Roy Guerrero Colorado River Park
- Barton Creek Greenbelt
- Circle C Metropolitan Park
- Gustavo “Gus” L. Garcia Recreation Center

Facility Types That Are Most Important to You:
- Nature Trails
- Pools & Water Features
- Natural Areas/Preserves
- Community Gardens
- Cultural/Historic Art Center

Programs Most Important to You:
- Outdoor Recreation
- Aquatics
- Stewardship Services (Adopt-a-Park/Trail)
- Arts & Culture
- Health & Fitness
- Senior Programs & Services

How Far You Are Willing to Travel to Parks (on average):
- Walk/Run: 15 minutes
- Biking: 20 minutes
- Personal Car: 30 minutes
- Transit: 30 minutes
- Taxi/Ride Share: 15 minutes

What Would Encourage You to Walk or Bike to Parks:
- More connected trails/bike lanes off streets
- Local or within 1 mile
- Improved neighborhood sidewalks and crosswalks
- Disc Golf (Closer access to disc golf courses, Put 9-hole disc golf courses at small parks)

How Austin Parks Can Improve:
OVERALL
- Better, More Consistent Year-round Maintenance & Repair Programs for buildings, vegetation and infrastructure
- Disc Golf Improvements (More courses, Add safer crossings)
- Expanding Programming (More water stations/pads, dog parks, utilities for large events, educational classes)
- Promotion/Outreach/Education
- Trail/Path Improvements & Purpose/Mode Separations (ADA accessibility/paths, better access into parks)

FACILITIES
- Disc Golf (More and improved courses, disc golf tournament)
- Trail Improvements (add separate bike/hike trails, repair throughout city, better signage)
- Maintenance (on invasive species, repair infrastructure, bathrooms)
- More Neighborhood Parks

PROGRAMS
- Athletic/Sports Facilities (Multi-use/Bike polo courts, tennis courts)
- Programming for Special Populations (Youth Sports programs, fitness classes/section for women)
- Streamline the process for arranging events in Austin Parks

What You Love About Austin Parks/What Austin Parks Do Well:
- Trails, variety in trails
- Nature
- Maintenance of facilities, parks and vegetation - always clean.
- Sports programming (Basketball, volleyball, swimming, Disc Golf)
- Spread throughout the city
- Disc golf and multi-use courts
- Programs/Activities offered, Accessible events

POP-UP SERIES #1

PURPOSE & OVERVIEW

PARD staff and consultant team member Adisa Communications, led pop-ups as a part of existing events or highly trafficked locations (e.g., libraries, farmers markets). These pop-ups took place in December of 2018 and January of 2019 and were designed to not only share information about the PARD Long Range Plan, but also to promote and extend the impact of the Community Series #1 by engaging residents and stakeholders outside of the meeting setting and encouraging more continuous, ongoing participation in the planning effort between meetings.

At the pop-ups, community members were greeted and provided with a fact sheet and one-page handout as well as PARD giveaways and additional Long Range Plan materials. Paper surveys and a tablet/computer were available to collect input for those interested. The money game board used as part of the first meeting series also proved an effective and concise way to gather input. Participants either completed the survey on site or were asked to complete the survey at a more convenient time.

PURPOSE & OVERVIEW

The online LRP survey opened following the first round of community meetings on November 27, 2018 and closed January 27, 2019. PARD advertised the survey through pop-up events, flyers, email blasts and social meeting, signage, CAP Metro and media/radio ads. Survey questions are intended to understand the current interests and needs of the community, related to parks and recreational facilities and include questions related to frequency of park use, how a person gets to or would like to get to their parks, and the types of programs and amenities they would like to see in future parks. The survey allowed for open ended comments and the LRP survey received almost 9,000 comments. The team is currently processing all the responses and will provide an update to this section and a full survey report as it is complete.
WHAT WE HEARD

A selection of responses to the 41 Online Community Survey questions:

2. Select up to five (5) programs that would increase your use of a park.

- 12% Nature programs
- 11% Musical or theatrical performances
- 10% Public art and art programs
- 9% Activity groups like walking clubs, cycling groups, gardening groups
- 7% Movies in the park
- 5% Culture and heritage events
- 5% Neighborhood gatherings and parties
- 7% Fitness classes like yoga, Zumba, boot camps, circuit training
- 7% Stewardship and volunteer opportunities
- 6% Children's programming
- 5% Organized sports leagues
- 4% Other (please comment)
- 4% Concessions such as boat/bike rentals

8. What would encourage you to walk or bike more to a park? (Select all that apply.)

- 29% Bike / Running / Walking Trail connecting to a park
- 24% Better maintained or safer sidewalks
- 21% Having a park closer to home
- 17% Better lighting and visibility along the route
- 6% Having a park closer to work or school
- 3% Other (please comment)

7. Do you feel there are adequate parks and usable green space within walking/biking distance from your home?

- 51% Yes
- 44% No
- 5% Uncertain
- 0% Don't use parks/recreation facilities
FOCUS GROUPS & INTERVIEWS

PURPOSE & OVERVIEW

As part of the insight gathering process, the GO collaborative team is conducting a series of five focus groups and interviews that are looking to gather a deeper understanding about some key issues that the Parks and Recreation Department knows will be of community-wide interest in the future. The subjects for these engagements include: Parks Usage for Seniors, Dog Parks, Untapped Minority Youth Engagement, and Accessibility. Focus groups were held for each topic at different park facility locations. For the senior audiences additional interviews are being held with seniors who do not currently access the city’s senior centers and other park amenities in order to more fully understand how the city can better serve that particular audience of users.

CULTURAL FACILITY AUDIO SURVEY

PURPOSE & OVERVIEW

Consultant team-member, GO collaborative conducted an arts-based engagement activity intended to bring a deeper understanding of the role PARD Cultural facilities play in the lives of their users. The team interviewed Austin residents at eight city cultural facility sites, and results from the conversations will inform the development of the LRP. A local Austin-based sound is creating an “audio compendium” as a sampling of comments to be available to the larger project for education and promotional purposes.

The survey results and audio clips are being processed and this section will be updated as they are completed.

- 6% Summer Playgrounds Program (free drop in youth program)
- 4% Summer Camps—Cultural Programming
- 3% Toddler programs
- 1% Other (please comment)
FACILITY PREFERENCES

Far far away, behind the word mountains, far from the countries Vokalia and Consonantia, there live the blind texts. Separated they live in Bookmarksgrove right at the coast of the Semantics, a large language ocean.
