

Colony Park Aquatic Facility

Virtual Public Meeting #1

Summary Public Engagement Report

OVERVIEW

The Public Engagement process for the Colony Park Aquatic Facility kicked-off in December 2020. The engagement team, led by Cortez Consulting, designed a communications plan to market and involve the community in the process. An announcement for the first Virtual Public Meeting was made during the Colony Park Core Team meeting on December 1, 2020, and key stakeholders were informed of the ways they could be involved with the first phase of this project.

The Communications Plan involved developing marketing content, in Spanish and English, for all notifications on behalf of the project. The first strategy was to create a digital flyer with active links to announce the Public Meeting and to design the graphics and language for the meeting. Upon consulting with PARD and the design team, we formulated **three** outcomes for the meeting which included to: (1) introduce the Project Team to the community; (2) provide a historical background of pool funding and timeline; and (3) gather community feedback on pool activities, pool amenities and building characteristics. Once the content and strategy were approved, the Public Engagement Team utilize various marketing channels to announce the meeting date and project. In order to reach a broad audience, particularly those individuals without means for accessing social media, information was shared through a City of Austin press release, neighborhood association leaders, the LBJ Vertical Team school contacts, notifications on Nextdoor and through YouTube which is accessible by cell phone. The social media accounts for PARD, the Colony Park Sustainable Community (CPSC) and Colony Park/Lakeside Neighborhood Association (CPNA) were used throughout this time. The public engagement team designed graphics, developed content, and translated information for all platforms. Information for the Colony Park Aquatic Facility project website was also updated for the launch of the project.

Overall, the Public Engagement Team successfully:

- **Educated** the community about the overall Colony Park Aquatic Facility project and process,
- **Engaged** a wide variety of stakeholders by developing new, innovative digital strategies,
- **Maintained** transparency throughout the public engagement process by consulting with key community members regarding the date, means for outreach and notifications.

Ultimately, a process was **designed** for the Colony Park Aquatic Facility Public Meeting #1 while navigating Stage 5 restrictions during the COVID-19 pandemic.

MARKETING & COMMUNICATION STRATEGIES

On Wednesday, January 27, 2021 the first Colony Park Aquatic Facility Virtual Public Meeting was held and streamed LIVE through the City of Austin’s Parks & Recreation Department (PARC) YouTube Channel, the Colony Park Sustainable Community (CPSC) Facebook page and CPSC YouTube channel. The community provided feedback and included their personal preferences, ideas and input on the new facility. In order to provide the community with ample time to provide input, feedback was gathered during the meeting and a survey was designed to collect feedback over a two-week period after the meeting.

Various marketing strategies were used to promote the launch of the Colony Park Aquatics Facility Virtual Public Meeting #1 and the community survey. The marketing strategies were developed to reach as many community members as possible and provide various access points for community members to engage with the project. This report reflects the strategies, progress and overall results of the engagement process and input gathered for the Colony Park Aquatic Facility Virtual Meeting #1.

WEBSITES

The Colony Park Aquatic Facility and Colony Park Sustainable Community websites were used to record information for public reference. Information posted to these websites included information about the three public meetings, digital flyer for Public Meeting #1, and historical information regarding pool. After the meeting on January 27, the website was updated with a link to the recorded meeting as well as the Spanish and English survey located on the “SpeakUp Austin” site.

Virtual Public Meeting: Jan. 27 at 5:30pm

Let the journey begin!

The City of Austin Parks and Recreation Department invites you to the [Colony Park Aquatic Facility](#) Virtual Public Meeting. This will be the first of a series of three public meetings to help design the future Colony Park community pool.

During the meeting, community members will enjoy a virtual open house tour, meet the Project Team and provide input on the design. Spanish interpretation services will be provided.

About Aquatic Facility

The Colony Park Aquatic Facility will be a new addition to the 93-acre [Colony Park District Park](#). Funding for the construction of the Aquatic Facility was made possible with the support of community leaders and the City of Austin 2018 general obligation bonds. The Colony Park District Park currently includes a baseball field, soccer/multi sports field, a large play area with elements of nature base play, fitness equipment, two pavilions, drinking fountains and a hike and bike trail. VIRTUAL PUBLIC MEETING #1: RESULTS

The results below reflect the data collected during the Colony Park Public Virtual Public Meeting #1. The meeting was successfully stream via Colony Park Sustainable Facebook Page, Colony Park Sustainable YouTube Channel and Austin Parks & Recreation Department YouTube Channel. To replicate an in-person Open House & Public Meeting, the public engagement team designed a 5-minute video that provided community members background information on the project and photos of elements for the pool for which they would be providing input. With the support of the design team, we created three categories to gather community input: pool activities, pool amenities and building characteristics. Descriptions were provided in Spanish and English and referred to later when member had an opportunity to provide feedback. This video has proven a huge success and was used for presentations to the various schools in the area. Overall, the following details that total number of surveys collected.

Community Feedback Poll Results

Virtual Public Meeting #1 Poll Results

Public Meeting #1: POLL ACTIVITY OVERVIEW

During the meeting, the software “Polls Everywhere” was used to gather LIVE feedback from the community. The public could view results of their responses immediately and engaged with the meeting. During the meeting, it was stressed that this feedback would be collected and shared with the design team. LIVE responses to the polls were recorded and resulted in the following information. It is important to note that while there were a larger number of participants, not all community members engaged in the poll exercise. Reasons for this could be some of viewers were City or project staff, non-residents or individuals who did not feel comfortable providing their responses. A total of seven (7) questions designed by the Project Team were asked that included open ended responses and a selection of the top four (4) choices for pool activities, pool amenities and building characteristics. Overall, a total of 15 participants provided responses during the public meeting.

COMMUNITY FEEDBACK: OPEN-ENDED QUESTIONS

A total of four (4) open-ended questions were asked of the public regarding their opinions about the words that describe the Colony Park community, the type of location they envision the pool to be and descriptors for the artist and Arts in Public Places process. These responses were collected in a “Word Cloud” and the most popular word/phrase was visibly the largest word. The fourth question allowed the public to provide a quote as to why the pool was important for the community. Below reflects the information that was collected during the meeting.

Question #1: When you think of Colony Park, what word or phrase best describes your community?

- Family Friendly
- Minorities, family
- Family
- Unity
- Community
- Home
- Historic to Austin
- Diverse
- Resilient
- Not my community
- Diversity, Minorities, families

Question #2: When you envision the Colony Park Aquatic, what kind of place would you like it to be?

- Place of destination, a place to enjoy family and friends, a place to get healthy
- Open and free for all. No discrimination
- Welcoming. With relevant programming and flexibility.
- Where people of all ages and culture are welcome. It should be catered toward working adults in addition to families.
- Inclusive
- Family Friendly, green space, interactive
- Beautiful
- Open, within nature, varied, family friendly, innovative
- FUN, Free, inexpensive, diverse staff
- Friendly, inviting
- Friendly

Question #3: What word(s) could you share with an artist to help design the artwork for this project?

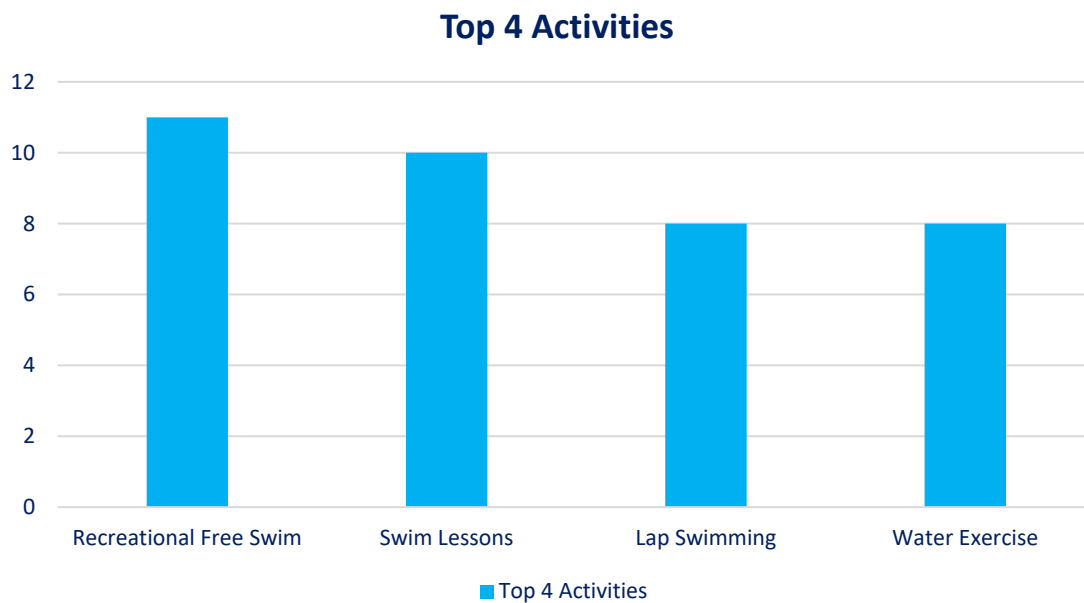

- Vibrant
- Vibrant
- Resilient, Together, Family, Beauty
- Bright and colorful, representative of family and community.
- Unity
- Inspiring
- A continuation of the theme of peace
- Family, people of color
- Diversity, Family, Love, Friendship
- From the neighborhood
- East
- Diversity
- Shaded

Question #4: Why is the Colony Park Aquatic Facility important for your community?

1. Health and Justice - everyone needs access to city assets!
2. To provide a mix use environment for the neighborhood and interact with others.
3. This will be a gathering place for families. It will also be important because we have the highest rate of mortality and morbidity in Travis county this will allow us to become a healthy community.
4. Pools and learning to swim can be lifesaving.
5. Provides a family friendly, fun experience!
6. Public facilities are needed in the developing eastern crescent of the City.
7. Every neighborhood deserves the same amenities. For too long this part of Austin has been left out.
8. Our hood doesn't have any water facilities and people are always asking for it. It allows people of all incomes to escape the hot sun and can help people meet each other and friendships to form.
9. It can unite our community in one safe, enjoyable and beautiful place for the whole family.
10. It represents a place where everyone can be!
11. Access to PARD pool services in our neighborhood.

VOLMA OVERTON ELEMENTARY STUDENT FEEDBACK: POLL

In addition to marketing the Public Meeting, our team took the initiative to connect with neighborhood schools. We worked with Barbara Jordan Elementary, Volma Overton Elementary, Gus Garcia Young Men’s Leadership Academy, and Lyndon Baines Johnson (LBJ) High School to gather students’ feedback. Due to testing and weather emergencies, we were unable to collect data from Barbara Jordan Elementary or Gus Garcia Young Men’s Leadership Academy prior to preparing this report. Data will still be gathered from these schools and provided to the design team.

SURVEY FEEDBACK: POLL ACTIVITIES

A community survey was created through SpeakUp Austin, in Spanish and English, for community members who were unable to participate in the poll activity during the meeting on January 27, 2021. A two-week period was provided to collect feedback. With this survey, we were able to collect demographic data and also screen whether participants took part in the public meeting. Data reflected a high number of individuals did view the meeting and there were approximately 379 visitors to our site, but only 45 completed the survey. Information from the report also showed that visitors came to the Speakup Austin site through direct links provided via social media or email announcements. Below is a summary of the participant activity and a general analysis of the survey.

SPEAKUP AUSTIN ANALYSIS

In our analysis, there are some key take-aways to note with regard to demographics, age, income and overall representation of the participants who took the Colony Park online survey. First, the information collected is a positive reflection of what we currently know of the Colony Park/Lakeside Neighborhood—there are a high number of Black and Latinx families who are low-income, below the 80% Median Family Income (MFI) of \$95,900 as categorized by income limits used by U.S. Department of Housing and Urban Development. Data from this survey reflected that of the 45 respondents, 60% identified as Black/African American or Hispanic/Latinx and 66% have a household income below \$74,990. In addition, 66% were under the age of 45 and 64% have lived in the area for more than 10 years. While in some surveys can include residents from other areas of town, 64% of the individuals that participated in this survey lived in the (78724) zip code. This reflects that the information shared in the survey is representative of the residents who will most

closely be impacted and benefit from the Colony Park Aquatic Facility. Another interesting factor to note is that while we provided a Spanish survey and had zero respondents, 20% of the participants from the English survey indicated that Spanish is a language spoken at home.

In regards the type of pool activities community members ranked the highest, free swim (40), swim lessons (38), water exercise (27) and lap swimming (24) were the top choices. The pool amenities that residents want to see built in the pool are play feature/structure (29), water slides (26), lane lines/water tree (21) and zero pool entry (20). As for the type of building they envision for the pool, the majority of residents voted for the concrete wall/steel frame (22), masonry block and translucent panels (20) or colorful shade structure and wood siding (21). The concrete wall and steel frame building feature was voted the highest in all the feedback collected, and it was brought to our attention that the landscape in front of the photo was most appealing. The design team will need to take into account this prominent feature and determine if landscaping can be a cornerstone of the facility appeal. Lastly, the residents shared that the artistic elements of new public art for the pool should be colorful, inclusive and want that is reflect of diverse backgrounds.

Like dick Nichols but nicer because this area has lacked a nice pool/park & has been underserved for a very long time as tax payers. I would like to see a nice play ground with many options for the kids like zilker park has for west Austin citizens. I envision it with water & splash pads like Metz. A basketball and tennis court. A pond area. A swimming pool. Volleyball area. Skate park.

Pools where swimsuits are required for adults and children and SWIM DIAPERS are REQUIRED for infants and toddlers. Dressing rooms for men and women and many dressing rooms for families (not just one) all separate, no children in adult dressing rooms. Plenty of seating near pool areas for parents to watch children. Picnic area in pool areas so kids can take a break and have lunch. Interesting water features that spray, spout and spill. An area for tube slides. An adults only swim area.

Something like mueller has, more of an attraction than just a pool. I feel most projects implemented in the area, like the "trail" at the rec center just feel like someone slapping a stamp that they did it, but it's not actually something people want to use. Make it something people would LOVE to live close to.

It would be the only pool this side of 183. My current concern is reaching the Aquatic Center from the west side. I live next to Johnny Morris and currently the train tracks impede me from walking quickly to Colony Park. Johnny Morris itself is very unsafe to walk on as the sidewalks between Gus Garcia and Barbara Jordan are almost non existent. Additionally, drivers more often than not, drive faster than the speed limit of 30 MPH. Furthermore, drivers consistently drive over the speed limit of 45 MPH on Loyola. All points considered. The walk from the west side is not the safest yet. Improvements in sidewalks, lower speed limits, better crosswalks are necessary.
