

2013-2014

**Bright Green Future Grants:
Middle School Recipients**

Students at **Bailey Middle School** will learn about the **Dryland Farming Technique for Growing Fruit Trees**, empowering them to grow healthy fruit with proven water conservation techniques.

Kealing's Gardens will be expanded to include additional beds and a rain water collection system, while the **Cycle Academy** will focus on bike safety and maintenance skills, and promote an action-oriented, healthy lifestyle.

Small Green Tech Academy- will include greenhouses for native plants, raised beds for food gardens, composting facilities, and furniture construction from repurposed materials.
