

## Community PC Program

The Community PC Program was created by the Community Technology Services Division of the City to refurbish devices retired from City service and makes them available for public benefit. With this program, city computers can avoid the landfill, provide hardware training for refurbishment interns, and be given to Austin area non-profits in need.

### Device Details

- o Applicants can request 10-30 devices
- o Dell Optiplex desktops (towers, keyboards, and mice only, no monitors)
- o 4 GB of RAM
- o Minimum of 160 GB of hard drive space
- o At least an Intel I3 processor
- o Windows 10 and/or Microsoft Office Suite can be pre-installed for \$6 per license (GTOPs funding cannot be requested to cover the license cost)
- o Availability dependent on inventory
