

## Musician Loading/Unloading Zone (MLZ) Permit Application

Recognizing the need for performing musicians to be able to load and unload musical equipment with reasonable access to downtown venues, the Austin Transportation Department has initiated a program that provides access through the use of "Musician Loading/Unloading" zones. The Music and Entertainment Division will act as a liaison between applicants and the Austin Transportation Department.

Permits will be issued to establishments for use in locations predetermined by Transportation Department Engineers. Permit cost is \$25.00 per permit, limit two per establishment. The following guidelines must be adhered to in order to assure continued participation in the program. Misuse and negligence may lead to an establishment's exclusion from participation in the program.

- 1) Valid use of the permit within a Musician Loading/Unloading zone will require the permit to be displayed on the vehicle's rearview mirror with the Emergency flashers/Hazard lights activated for the duration of loading or unloading activities.
- 2) Permits may only be utilized during the Musician zone's posted hours of operation.
- 3) The establishment's management and/or ownership will maintain responsibility for proper use of permits, which includes distribution and recovery of the permits to authorized users.
- 4) Musician zones are not intended for the use of establishment ownership, management, or employee parking.
- 5) Vehicles illegally parking, stopping, or standing within Musician zones may be towed without warning.
- 6) A maximum of 2 permits will be issued to participating establishments.
- 7) Lost or stolen permits must be immediately reported to the department.
- 8) Replacement permits will incur a \$40.00 replacement fee for each requested replacement.
- 9) No idling beyond 5 minutes.
