Tuesday – NOON to 1pm AT CITY HALL Boards and Commissions Room 1101

- **CER Monthly Lunchtime Lecture by Kevin M. Anderson**
- Downtown at City Hall
- **The Urban Natural History: Life in the City**
- This Thoreau famously declared, “In Wildness is the preservation of the World” and that “cities import it at any price.” Urban nature is incorporated into the urban landscape in parks, gardens, and preserves as official sites of sanctioned nature. Additionally, nature emerges in the shadows and alleyways as unofficial sites of unsanctioned and often unwanted nature. All of this urban nature has a rich tradition of study exemplified in urban natural history. The natural history of European cities like London, Berlin, and Paris has been studied for centuries, and the more recently created cities of America have also been documented through the work of naturalists. Join us for an overview of the history of urban natural history and a bit of Thoreau!
- **Transportation Options for City Hall**
