- Contact Claude Morris at cgmorris@flash.net to participate

Oct 7

Tuesday NOON to 1pm at Waller Center, 625 East 10th Street [Between Red River and I-35]

- **Center for Environmental Research Lunchtime Lecture by Kevin M. Anderson**
- 2014 Lunchtime Lecture theme – Nature and the American Mind
- October Lunchtime Lecture: **Farming With Nature: The Unsettling of America**
- Wendell Berry writes, “I would argue that we do not need just the great public wildernesses, but millions of small private or semiprivate ones. Every farm should have one; wildernesses can occupy corners of factory grounds and city lots – places where nature is given a free hand, where no human work is done, where people go only as guests.” Yet, as he also points out, “...we cannot hope – for reasons practical and humane, we cannot even wish – to preserve more than a small portion of the land in wilderness. Most of it we will have to use.” Join me this month, as I explore the responses of Wendell Berry and other pastoralists about how we should use land and the relationship between farming and nature in America.

Oct 11

Saturday 7am-11am and 4pm to dark meet at the CER

- **Hornsby Bend Bird Observatory Program Monthly Bird Survey**
- The HBBO Bird Survey is open to all levels of birder interested in intensive monitoring, although this is not a field trip. In the morning, we have teams covering different areas of the Hornsby Bend facility, and they count numbers of all birds seen. It is 4 hours of hiking and counting, but lots of fun along the way. We meet again around 11am to tally up the species. The afternoon involves looking around for species missed that morning, and we go until sundown. More information about the CER HBBO program at www.hornsbybend.org
