- Jan 9** **Wednesday – NOON to 1pm** AT Dougherty Arts Center, 1110 Barton Springs Road
- **CER Monthly Lunchtime Lecture by Kevin M. Anderson**
 - Please note NEW DAY OF THE WEEK – WEDNESDAY – FOR THESE LECTURES
 - **The Round River: Myth, Meaning, and Rivers**
 - The 2013 Lunchtime Lectures will explore the geography of rivers. The metaphor of the “round river” which flows back into itself provides the structure of the lectures. We begin with the mythical, metaphorical river which runs so deeply in human culture and specifically in American culture. Humans have ancient and complex cultural relationships to rivers revealing the deep significance rivers have for the human psyche. The river as a symbol of Being can be found throughout mythology, and, from the Pre-Socratic philosopher Heraclitus, we supposedly learned that one cannot step in the same river twice.
- Jan 12** **Saturday 7am-11am and 4pm to dark** meet at CER
- **Hornsby Bend Bird Observatory Monthly Bird Survey**
 - The HBBO Bird Survey is open to all levels of birder interested in intensive monitoring, although this is not a field trip. In the morning, we have teams covering different areas of the Hornsby Bend facility, and they count numbers of all birds seen. It is 4 hours of hard hiking and counting, but lots of fun along the way. We meet again around 11am to tally up the species. The afternoon involves looking around for species missed that morning, and we go until sundown. More information about the CER HBBO program at www.hornsbybend.org
