

PRESSURE REGULATING VALVE (PRV) MULTI-FAMILY REBATE

Austin Water's **Pressure Regulating Valve (PRV) Rebate** can help with costs for installing a PRV to reduce water pressure at your multi-family property.

SAVINGS

- Reduces water waste by lowering water pressure
- Prevents damage to pipes, appliances, and water fixtures from undue wear

REBATE AMOUNT

- \$100 per unit for parts and labor (*tax is not included*) up to a \$500 maximum for the property

ELIGIBILITY

- **Applicant:**
 - o Must be an Austin Water customer at a property with five or more units
 - Properties with up to four units must use the [Residential PRV Rebate](#)
 - o Must be the property owner or utility account holder
 - o Have water pressure of 80 pounds per square inch (psi) or higher without a PRV
 - o May not be replacing an existing PRV
 - o Must consider possible impacts of reducing the water pressure and understand that Austin Water is not responsible for any problems that might occur
 - PRVs can potentially impact underground irrigation systems that were designed to operate at a higher pressure.
 - o Is responsible for any future repairs or replacement of the PRV
- **Pressure Regulating Valve:**
 - o Must be installed by a licensed plumber and set between 35 psi and 65 psi
 - o Must be installed immediately after the customer cutoff valve, before any irrigation taps, unless the irrigation system has its own PRV
 - o Must be installed in a sleeve or meter box that is easily accessible for maintenance
 - o Must be an International Association of Plumbing and Mechanical Officials (IAPMO) approved model
