

To ensure transparency and the values of our customers lead the Cost of Service rate study, Austin Water has created two involvement committees for public and wholesale customers. All customers are encouraged to attend public meetings and/or submit questions and comments. The goal of each committee is to provide representation for their Austin Water customer class, review and assess the cost of service process, and provide valuable input and recommendations to the Austin Water Executives.

WHOLESALE INVOLVEMENT COMMITTEE

The **Wholesale Involvement Committee members** include representatives from each of Austin Water's wholesale customers served.
