	used oil	600 gal. AST	I
United Parcel Services	PG	2,500 gal. In totes/drums	I

**Notes:**

(1) The RCCF was previously used as a paint booth by the airforce. Facility waste was gathered in a drain system throughout the hangar that flows to the 6,000 gallon tank contained in a 36,000 gallon concrete vault. DOA uses the building primarily for storage of some equipment and granular and liquid deicing chemicals; DOA does not operate the paint booth.

**Abbreviations:**

PG - Propylene Glycol	I - Indoors
O/W Sep. - oil/water separator	O - Outdoors
AST - above ground storage tank	unl - Unleaded
UST - underground storage tank
