

# RECYCLING GUIDE

CENTRAL BUSINESS DISTRICT

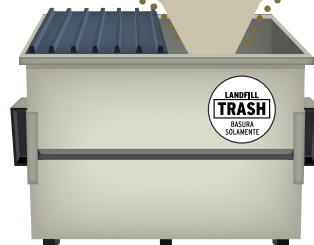

Before trashing an item, see if there's an alternative option. For more info, visit [austinrecycles.com](http://austinrecycles.com)

## Recycle

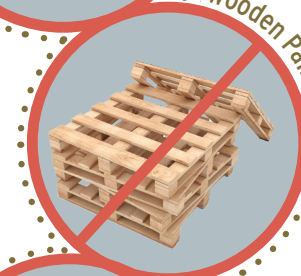

## Trash

## Keep-Out (of dumpsters)

Builders and contractors should haul this material offsite. Find outlets at [austintexas.gov/processor](http://austintexas.gov/processor)

Have suppliers take back pallets or find a pallet recycler. Contact City staff for help using the email address below

Half-full bottles, cans, or cups should be emptied into the sink then recycled. Liquids in recycling or trash dumpsters can pose a safety risk to collection truck drivers.

Hazardous materials should be kept out of dumpsters and taken to a proper disposal facility, or contract with a vendor to have this material collected.
