CONSTRUCTION MANAGER AT RISK

ABOUT:

Construction Manager at Risk

- Construction Manager (CM) is on board during design phase to collaborate on constructability, cost estimating and schedule
- CM is a skilled advocate for the owner selected by best value
- CM is responsible for construction holds the risk for cost overruns minimizing need for change orders
- City reviews CM's processes and cost using "Open Book Method" (cost of work, overhead, markups and contingencies)
- Used for larger complex project with time sensitive schedules
- Two-step selection process
- Contract allows for project phasing and guaranteed maximum price for construction
- Supports long lead time ordering, manufacturing and delivery considerations for specialized materials and equipment
- Allows for early site and construction packaging
- Fast transition from design documents to construction
