

1 Pre-Construction Inspections

Building Pre-Construction Meeting & Inspection Required to review:

- Meet with Contractor on site.
- Confirm address and permits.
- Review and add project contacts, email addresses, and phone numbers to Amanda.
- Verify Special Inspections.
- Check plans.
- Verify Rated Assemblies.
- Verify Plans Examiner notes.
- Check for portable restrooms.
- Check for trash receptacles.
- Check for work in right of way.
- Check overhead power lines.
- Check landings and accessibility
- Check design standard requirements.
- Check for safeguards.

Trades may now call in inspections after the pre-construction meeting has passed.

Address must be posted on the site at all times and visible from the street throughout the construction process.

Prior to the start of construction, erosion & sediment controls as well as tree protection measures need to be in place if applicable to your project. For more information, [please reference](#) the Tree Protection and Erosion/Sedimentation Controls Flowchart.

2 Pre-Foundation Inspections

Third-Party Inspections

- Layout Inspection
- Foundation Inspection

NOTE: Contractor must receive third-party letter for this inspection. Final letters are to be provided to the inspector at time of Final Inspection.

Trade Rough Inspections

All Mechanical Rough, Electrical Rough, and Plumbing Rough Inspections must be completed. [Please reference](#) Commercial Inspection Flowcharts by subject matter.

3 Framing & Interior Inspections

605 WUI

For scheduling or questions, contact AFD at 512-974-0153, ext. 3.

Third-Party Inspections

- Framing Inspection (trusses and structural framing)
- Fire Stop Inspection

NOTE: Contractor must receive third-party letter for this inspection. Final letters are to be provided to the inspector at time of Final Inspection.
