Seeking Care During COVID-19

- Are you just worried?
  - Do you think you came in contact with someone with COVID-19 but have no symptoms?
  - Stay Home
    - Do not overwhelm medical staff by going to the hospital without serious symptoms
- Did you travel?
- Fever, cough, headache, runny nose, loss of smell or taste, sore throat, diarrhea, chills, muscle pain?
  - Call for Advice
    - Use telehealth or call your primary physician
- Difficulty breathing, chest pain, confusion, or fever that doesn’t respond to medication?
  - Seek Care
    - Call 911 or go to the emergency department
