

# DRAFT

## High Injury & Death Roadways (2010-2014)

by Council District

The high injury and death road network shows the road segments within Austin's full-purpose jurisdiction that have the greatest concentration of incapacitating injuries & deaths.

The high injury and death roads were mapped by creating a spatial join between the roadway network feature and points where incapacitating injuries and deaths have occurred.

**VISION ZERO**

any traffic death is too many

### Roads with incapacitating injury or fatal crashes

### Deaths by mode
