

Do Your Part to Stay Safe

Vision Zero is achievable if we look out for one another and are aware of our surroundings. Do your part by eliminating distractions and follow the rules of the road. Here are some additional recommendations when using various modes of transportation.

Driving

SLOW DOWN, DON'T SPEED

Speed can mean the difference between life and death.

EYES ON THE ROAD

Reaching, reading, dialing or typing takes your hands off the wheel and your eyes off the road.

Biking

wear **bright** colors **BE VISIBLE**

especially at night

STAY OUT OF THE BLIND SPOT

WATCH FOR RIGHT OR LEFT HOOKS

Walking

WATCH FOR TURNING CARS

OBEY CROSSING SIGNALS

CROSS ONLY AT THE CROSSWALKS

no matter how you get around
