5	I would like to see better maintenance of the creek banks	11/2/2016 2:04 PM
6	The streets on either side of the park are excessively wide and encourage speeds well in excess of the posted 25 MPH. The street should be narrowed to an appropriate width. Any new crosswalk connecting the BMX portion to the rest of the park should be raised to the level of the sidewalk to provide a speed hump and a curb extension into the parking lane in order to shorten the crossing distance and provide enhanced visibility for children and others who may be shorter than parked vehicles.	11/2/2016 12:36 PM
7	The east end of the park can turn into a small pond after rains. Site drainage is very important.	11/2/2016 11:37 AM
8	Keep Duncan from "overdevelopment" and enhance the basic facilities and passive needs.	11/2/2016 11:21 AM

18	Please DO NOT build a restroom—it is not needed as a neighborhood park and would cause the homeless to hang out in the area.	10/20/2016 7:41 PM
19	Please remember who the community is that surrounds the park. There are many public facilities close by providing playscape, restroom, "Y" activities, skateboard and BMX opportunities. Perhaps an area for quiet reflection in such a small, peaceful area as well as an area for lunch frisbee and after school free play	10/20/2016 1:04 PM
20	Dog play - just a small fenced off lease grassy area	10/20/2016 12:54 PM

35	Maybe more outdoor seating	11/5/2016 9:09 AM
36	Beautiful	11/5/2016 9:07 AM
37	One that builds a stronger sense of community	11/5/2016 9:07 AM
38	A cleaner, healthier space	11/5/2016 9:06 AM
39	Clean and well kept	11/5/2016 9:05 AM
40	More gathering points: benches, gazebo, etc	11/5/2016 9:03 AM
41	See above	11/5/2016 9:02 AM
42	Green space where everyone can enjoy nature	11/5/2016 9:00 AM
43	N/a	11/5/2016 8:58 AM
44	Nicer	11/5/2016 8:57 AM
45	Beautiful space with restrooms	11/5/2016 8:53 AM
46	Not that much different than today. Improve/solve the poor drainage at the east side of the park, install grass and an irrigation system to keep the grass green, plant more trees around the park perimeter and along the paths/trails to provide shade, install a crushed granite path where users have currently worn a rut in the grass (running from the northeast corner of the park to the middle of the 9th street side).	11/4/2016 2:04 PM
47	Better care for the lawn (irrigation). Planting more perimeter shade trees. DO NOT carve up the lawn. Austin parks are losing open green space. Let the public (the individual users) enjoy and creatively interpret the use of the green space on their own. (playing frisbee, informal sports, flying a kite etc) Parks ARE the amenities. Parks do not need add amenities of playscapes, art installations, nature center etc. Those can occur organically and temporarily by the users without permanently removing open lawn space. PLEASE leave the green space GREEN and open. This area always can use more shade trees and additional/improved water fountains. Drainage improvements for the east side are needed.	11/4/2016 1:53 PM
48	Pruned trees, neater lawn, better lighting, repaired sidewalk, repaired picnic tables, a few additional landscape features such as flower beds near the trail. What I DO NOT want to see is reduction in green space (that park is one of the few open green areas in all of downtown) or converting the park which is primarily used by adults into a child's play place--there are many children friendly parks in the city and fewer adult oriented parks.	11/4/2016 8:17 AM
49	Less homeless	11/4/2016 8:13 AM
50	A less-natural looking park (entire perimeter is overgrown and wastes space). Ornamental trees at entrances, seating, wifi, and an improved lawn	11/4/2016 7:03 AM
51	Not too different, better flood resistant shoal creek access. Maybe a sports field area.	11/3/2016 6:44 PM
52	Childrens playground that integrates nature. A great place to stop along the Shoal Creek Trail to enjoy the outdoors.	11/3/2016 3:08 PM
53	Lush lawn, increased tree canopy, more places to sit in the shade, safe and increased lighting	11/3/2016 1:58 PM
54	A great public space and neighborhood park	11/2/2016 4:53 PM
55	leaving it as natural as possible.	11/2/2016 2:41 PM
56	clean, maintained, not much different	11/2/2016 2:04 PM
57	More shaded places to sit. The lawn should be maintained because it is well used on peasant days, but some taller plantings at the north and south sides of the park could provide buffer from street. A small playground could also provide a reason for more people to visit.	11/2/2016 12:36 PM
58	Someplace more people use and where more small-scale events can be held.	11/2/2016 11:37 AM
59	A simply enhanced green space for running about and playing on the lawn. Additional placed picnic tables with shade, restrooms, some interpretive near the creek, limited low intensity lighting, bat interp near the bridge and limited eco interp displays. Access to the trail is fine already!	11/2/2016 11:21 AM
60	Better draining and lighting	11/2/2016 11:07 AM
61	Really I think duncan park is pretty nice as is. Perhaps if parking were free along 9th street it would be easier to recreate there with the kids. Decent, clean bathrooms and a working water fountain would be nice. The BMX track is great for the kids. They love riding circles around the little track and trying the bigger stuff too.	11/2/2016 9:33 AM
62	A place where bmxers can enjoy taking part in working and helping 9th st continue it's legendary history.	11/1/2016 10:06 PM
63	Trailhead to Shoal Creek trail, rain garden with interpretive signage and habitat	11/1/2016 2:20 PM

Duncan Park Improvements

64	a more natural area by the creek with more plants/shade	11/1/2016 1:20 PM
65	Embracing the little corner of the park that becomes completely soggy and swampy after it rains. It would be great to see that transformed into a mini wetland that would serve as a habitat for native wildlife and plants.	11/1/2016 11:24 AM
66	A safer crossing to the bmx track, some lighting for night tme riding,and a rest room A sign dictating the rules of the bmx track. No motorized vehicles or R/C cars	10/31/2016 2:58 PM
67	Speed bumps on road for safety, more water access, bathrooms	10/30/2016 11:23 PM
68	Duncan park has a very strong, self sustaining ecosystem carried out by dedicated bmx cyclists. It would be great if the park accommodated the the hard labor that is preformed by the local jump builders. Things like water hoses, tools, water fountains, bike racks, ect.	10/28/2016 4:38 PM
69	Improving the dirt jumps. Making sure there is something for beginners all the way up to professional riders.	10/28/2016 12:30 PM
70	Something that is utilized by the community. Currently, it seems to be mostly used as a pass-through park, and because of this, it seems to be a popular hangout for many homeless people. I believe if it were designed to be used (playground? Exercise classes? Other elements that work well in other parks), it would be much more attractive.	10/28/2016 11:12 AM
71	A park that continues to grow and strengthen the community that surrounds it.	10/27/2016 8:39 PM
72	just about the same	10/27/2016 3:44 PM
73	Duncan park looks like a healthy park that encourages families to play together...especially at the bmx dirt jumps.	10/27/2016 1:04 PM
74	Lighting and better access to shoal creek	10/26/2016 3:59 PM
75	I like that it's not programmed. Please just take care of the flooding/drainage issues and trees. Please NO public art.	10/26/2016 1:56 PM
76	Duncan Park does not need to be "improved"! Especially do not want any hideous "child friendly" furniture, or anything else like bathrooms that would encourage homeless people to move in there.	10/26/2016 10:20 AM
77	Better trained and safer.	10/25/2016 6:42 PM
78	as a park as a destination, an inviting place	10/25/2016 5:17 PM
79	More trees. Healthy green space.	10/25/2016 3:16 PM
80	Irrigated lawn + widened sidewalks + restrooms.	10/25/2016 2:50 PM
81	A few more strategically located trash receptacles, graffiti removal from construction yard fence, fix drainage from depressed east end of field, SPEED HUMPS AND CROSSWALK ON 9TH ST to enforce 20 MPH zone (street has constant high-speed violators >30 MPH)	10/25/2016 2:35 PM
82	Nice shady park area for families to enjoy	10/23/2016 11:28 PM
83	Getting the 9th St. trails dialed in and up to par like current bike parks found around the country.	10/23/2016 1:52 PM
84	Not to have restrooms. Experience at Pease Park is proof enough. Alley-placed public rest rooms also terribly abused.	10/23/2016 11:09 AM
85	An improved Duncan Park would be more activated and opened up to interaction with Shoal Creek.	10/21/2016 10:16 AM
86	keep it about the same.	10/21/2016 10:08 AM
87	not too dissimilar to how it looks now. make it more inviting and accessible. improved drainage is key, designated areas to sit, play (i.e. throw a ball), and to let dogs run alittle. A fence is important if there is a designated dog area.	10/21/2016 7:21 AM
88	Fixing Shoal Creek so it doesn't flood, but leaving the park pristine and rustic as it is.	10/20/2016 7:41 PM
89	A tranquil, nature preserved area to relax in, escaping the bustle of the city.	10/20/2016 7:25 PM
90	It's a little beyond the scope of Parks and Rec, but I'd love to see the parts of the Downtown Austin Master Plan that would increase the number of residences near Duncan Park activated. In other words, a better version of the park in my mind has neighbors who can regularly use it. Beyond that, it's my experience riding by or through it that the lawn is often overgrown and certain areas puddle up with mosquito-incubating mini-swamps, which aren't necessarily ideal for picnics and the like.	10/20/2016 7:22 PM
91	Playground	10/20/2016 6:07 PM
92	The same as today, maybe with less people sleeping there.	10/20/2016 4:11 PM
93	Wide open green space that doesn't collect water on the north side of 9th St	10/20/2016 3:05 PM
94	It's relatively small and the density of use is high. Irrigation needs to be installed to help maintain the turf. It's used as a playing field for many groups and water should be made available. I sometimes see people at the picnic tables but most camp out under the trees. I would love to see an off leash option for dogs.	10/20/2016 2:48 PM

95	Just Maintain What We Have.	10/20/2016 2:31 PM
96	lawn improvement, trail access	10/20/2016 2:18 PM
97	Replacement trees for those lost over the past few years, lighting, more police monitoring at night	10/20/2016 2:03 PM
98	A light touch that balances the canopy & natural resources with passive recreation while accommodating users of the Shoal Creek Trail	10/20/2016 1:33 PM
99	clean not retaining water when it rains	10/20/2016 1:05 PM
100	As it is used now. Perhaps more but subtle landscape. No large loud gatherings ever but especially at night. This is a residential area and a small park. Love the open area for spontaneous use.	10/20/2016 1:04 PM
101	Multi use. Green. A place to be and hang out with my dog off lease. A little backyard vibe for reading, playing, relaxing, learning.	10/20/2016 12:54 PM
102	Clean. No water buildups after rain	10/20/2016 12:01 PM
103	preserve green space, more plants and trees, some picnic areas thoughtfully grouped together in one area of the park	10/20/2016 11:37 AM
104	A park that's mostly green space with additional picnic tables and benches. Maybe a simple piece of public art. I don't want to see it become a mini Pease Park, esp. when that park is so close and OWA residents also have West Austin Park and Mary Baylor Park all of which have play scapes splash pads, etc. Keep Duncan Park simple.	10/20/2016 11:00 AM
105	Speed bumps on Ninth St., Landscaping, Revegetation, Planting Trees for the BMX areas	10/14/2016 2:05 PM
