

Pollinator Talks at Zilker Botanical Garden

All about Texas Native Bees

Saturday, August 3rd, 9am to 12pm

Native bees are the most important pollinators of flowering plants in Texas. This session will focus on:

- The basics of bee identification
- Separating bees from other flower-visiting insects
 - Major native bee groups
- How to conduct bee surveys and process specimens

Host: Michael D. Warriner, Invertebrate Biologist, TPWD

Cost: Free with admission to Garden, \$2/adults, \$1/children and seniors

RSVP by emailing Anjoli.Fry@austintexas.gov or by calling (512) 477-8672 X17

Monarchs, Milkweed and You!

Saturday, August 10, 1pm to 3pm

The Monarch population in Mexico last winter was the lowest ever recorded. Please join us for this educational talk to learn what actions you can take to help this magnificent long distance flyer of the insect world. Topics will include:

- The biology, life cycle and habitat requirements of Monarch butterflies
- Overview of Monarch Watch, conservation initiatives, and citizen science projects

Host: Mike Quinn, Entomologist and contributing editor to BugGuide.net

Cost: Free with admission to Garden, \$2/adults, \$1/children and seniors

RSVP by emailing Anjoli.Fry@austintexas.gov or by calling (512) 477-8672 X17
