ZONING

GENERAL OVERVIEW

GENERAL INFORMATION

This packet outlines the procedures and submittal requirements necessary to obtain a change of zoning within the City of Austin jurisdiction (full-purpose and limited-purpose City limits). The regulatory requirements and procedures for approval are defined in Chapter 25-2 of the Code of the City of Austin. Chapter 25 was adopted by City Council in order to protect the health, safety and welfare of the Austin community.

Additional information about the zoning process and code requirements can be obtained prior to submitting a zoning application by contacting the Development Assistance Center (DAC) on the 1st floor of the One Texas Center, 505 Barton Springs Road, phone 974-6370, or by visiting the City of Austin's Development Process and One-Stop Shop website at <http://www.austintexas.gov/department/development-services>.

WHAT IS ZONING?

Zoning is the division of land within a jurisdiction into separate districts within which uses are permitted, prohibited or permitted with conditions. Zoning establishes site regulations, such as building heights, bulk (density/floor-to-area ratio), setbacks, building coverage, impervious cover, etc. Zoning is a power granted to municipalities by the State in order to promote public health, safety, morals, or general welfare, and to protect and preserve places and areas of historical, cultural, or architectural importance and significance.

ORDER OF PROCESS

Zoning is usually the first step in the City of Austin's development process. A Neighborhood Plan Amendment may also be required if the property is located within an adopted Neighborhood Plan area and a change to the adopted plan and/or the property's future land use map (FLUM) designation is necessary. A Neighborhood Plan Amendment may be processed concurrently with a request for a zoning change. Prior to the construction or occupation of a new or expanded land use/business on a site, other steps including subdivision, site plan, or building permit and inspection, may be required. Contact the Development Assistance Center for additional information.

TIMEFRAME FOR PROCESSING A ZONING APPLICATION

Applications may be submitted on any working day at the Intake Center, 4th floor, One Texas Center, 505 Barton Springs Road, and may be found at <http://www.austintexas.gov/page/land-use-applications#zoning>. Please call 974-7208, 974-2681, or 974-2350 to schedule an appointment. A written report from staff will be available to the applicant and the public several days before the item is scheduled for review by the Land Use Commission. Zoning requests are typically heard by the assigned Land Use Commission on the fourth or fifth Tuesday of the month following the date of submittal (approximately 6 to 7 weeks), and by the City Council on the fourth Thursday following the Commission's recommendation.

CASE MANAGER

Each zoning application is assigned to a review team. The Case Manager will serve as liaison between you and the City of Austin and function as your main point of contact. Once your application has been submitted, any questions, problems, conflicts, etc. should be directed to the Case Manager. If you need to see your Case Manager, it is suggested an appointment be made to ensure the Case Manager is available.

NEIGHBORHOOD, COMMUNITY AND ENVIRONMENTAL ASSOCIATIONS

Information concerning neighborhood associations, community groups and environmental interest groups in the area of the zoning request is available at the Development Assistance Center.

URBAN RENEWAL ZONE

The site may be located within one of five Urban Renewal Plan districts created in the 1960s to allow clearance and redevelopment of certain parts of East and Central Austin. The Urban Renewal Plan areas are subject to specific land use and development standards that are unique to each area and applicable to all public (including the State of Texas and the University of Texas) and private entities. Contact the Development Assistance Center for information regarding the Urban Renewal Plan districts.

HOW TO OBTAIN INFORMATION

Clerical staff and planners are available by appointment or on a first-come, first-served basis each weekday between 9 a.m. and 12 p.m. at the Development Assistance Center, 1st floor, One Texas Center, 505 Barton Springs Road (512-974-6370).

HICS AND FINANCIAL DISCLOSURE INFORMATION

If you or your agent/representative were a City employee or City official within the past 24 months, you may be subject to the City's Ethics and Financial Disclosure requirements (see City Code Chapter 2-7). Copies of Chapter 2-7 are available from the City Clerk's Office.

ZONING

PLANNED UNIT DEVELOPMENTS

General Overview

Planned Unit Development district zoning is intended to produce development that implements the goals of preserving the natural environment, encouraging high quality development and innovative design, and ensuring adequate public facilities and services. The City Council intends PUD district zoning to produce development that achieves these goals to a greater degree than, and is therefore superior to, development under conventional zoning and subdivision regulations.

SUBMITTAL REQUIREMENTS

- ⊙ A Development Assessment must be submitted, a Master Staff Report received, and a Council briefing must occur prior to submittal of a PUD application.
- ⊙ Eighteen (18) copies of a 24 x 36 inch generalized land use map which shall include the following: project name, legal description, boundary lines with bearings and dimensions, total acreage, north arrow, scale and location map.
- ⊙ Existing topography using USGS or City datum at two (2) foot intervals for the property and adjacent property with 100 feet of the project boundary.
- ⊙ A Mylar will be required prior to finalization of ordinance.
- ⊙ Eighteen (18) copies of the proposed site development regulations to be established by the Land Use Plan.

Maps, exhibits and support materials, clearly indicating the following, shall be included in either or both of the above:

A. Existing and/or proposed land uses. Identify for each phase and for the total development:

1. Residential: Maximum density, total number and type(s) of unit(s)*, minimum lot size, building height, minimum setbacks and maximum impervious coverage. For multifamily uses, also show maximum FAR. If structures are proposed in excess of sixty (60) feet in height, schematic drawings shall be provided which illustrate the height, bulk and location of such buildings and line-of-sight analyses from adjoining properties and/or rights-of-way.
2. Non-Residential: Type of uses*, maximum FAR, total square footage, maximum impervious coverage, minimum setbacks and maximum building height. If structures are proposed in excess of sixty (60) feet in height, schematic drawings shall be provided which illustrate the height, bulk and location of such buildings and line-of-sight analyses from adjoining properties and/or rights-of-way.
3. Parkland/Open Space: Location and acreage of land proposed to be dedicated to the public and/or private parks, open space or buffer areas.
4. Civic Uses: Types of uses*, maximum FAR, total square footage, maximum impervious coverage, maximum building height and minimum setbacks.

- Uses shall be listed at a level of detail sufficient for Traffic Impact Analysis review as required in Article III, Section 25-6 of the Land Development Code.

- C. Environmental characteristics of the site, such as, but not limited to, 100-year and 25 -year floodplains, slopes, environmentally sensitive areas and protected areas as defined in applicable watershed ordinances.
- D. The phasing of the development and the manner in which each phase can exist as a stable independent unit consistent with the provision of adequate public facilities and services.
- E. The location of collector and arterial roadways proposed within the development, right-of-way widths, the location of access points to abutting streets and roadways and a Traffic Impact Analysis, if required by Article III of Chapter 25-6. (The number of copies of the required TIA will be determined by Transportation Review.)
- F. Identification of existing major street setbacks and planned right-of-way lines as required in the Austin Roadway Plan.

1. Water service including gallons per day requirement.
 2. Wastewater disposal including gallons per day generated.
