**Roadway Score:**  
Includes considerations such as the distance to the nearest signal or stop sign, number of lanes to cross, speed limit and whether there is a median.

**Pedestrian Score:**  
Includes considerations such as the pedestrian crash history and the number and type of pedestrian attractors in the area. Pedestrian attractors may include stores, restaurants, multifamily developments, bus stops, churches, schools, parks, etc.

**Community/Environmental Score:**  
Includes considerations such as whether the requested location is recommended for a PHB as part of an adopted neighborhood, corridor or master plan; is part of a school route or within an Environmental Justice Area.
