

Battle Bend Neighborhood Park Improvements: Phase 4, Water Quality

This project will clean stormwater from upstream development and improve water quality in Williamson Creek.

Project Features

- New, multi-purpose playing field that holds and filters stormwater when it rains.
- New paved walkways and pedestrian bridge.
- Removal of culvert, restoring the natural stream.
- Native trees and plants to replace invasive species.
- Repairs to adjacent sidewalk on Sheraton Ave.

Pardon Our Dust

During construction, please expect:

- Construction to start in the fall of 2019 and last about a year.
- Part of the park near the picnic tables to be closed.
- Some heavy equipment and construction trucks near the park.
- Some dust and noise during work hours.
